专业 质量 服务 持续改善与创新

柏雅，自公司创办以来，持之以恒地专注于塑料软管、强化复合铝塑管和片材焊接软管的生产经营与开发研究。在日新月异的市场环境中，我们为国内外化妆品、食品、个人与居家护理、医药和其他工业产品等行业中深具竞争力的经营者提供全方位的软管包装解决方案。坚持“专业、质量、服务”及其持续地改善与创新的经营理念，柏雅与其产品在激烈的市场竞争中不断地得到肯定。当客户在产品的开发与发展战略中需要软管包装时，他们信任柏雅！

最具聪明才智与奉献精神之柏雅员工，辛勤的工作于我们的广州公司和深圳公司中。在柏雅，每一位员工都明白，当客户让我们包装他们的产品时，我们所承担责任的重要性。质量必须体现在我们的每一件产品上！柏雅的工作团队都在关注客户的质量要求，并且根据ISO9001:2000国际标准，不断地改善和提高我们的质量管理体系的有效性。

柏雅人明白，体会客户的需求，并去满足客户的需求，是我们成功的关键。除了按客户产品设计要求生产出好质量的产品，在交货期、服务以及包装技术支持上，柏雅员工尽一切所能去提高客户的满意度。

专业、质量、服务上的持续改善与创新，使得我们总是能够为您的产品战略提供全面而准确的包装解决方案，令您的产品在货架上更具吸引力、更加出类拔萃。在产品开发、技术改进、生产设备以及厂房建设的持续投资，日益增强了柏雅在市场竞争中的竞争优势，使柏雅更加有能力服务我们优秀的客户。

我们以提供客户“最好质量的产品、最高水平的服务、最具竞争力的价格和交货期”为目标努力工作，热切地期待成为您最佳的包装伙伴！

塑料软管

Expertise. Quality. Service. Innovation.

Boya packaging, a sophisticated manufacturer of extruded polyethylene tubes, PE foil tubes and laminated tubes for cosmetic, food, personal and home care, pharmaceutical and industrial in China. We are one of the main tube suppliers in domestic market, more and more of our products are exported to our customers in USA, Japan, Europe, Middle East and many other countries. Both in domestic and abroad, customers put their trust in us for the launch and development of their products because of our focusing on quality, customer satisfaction and our constant desire to improve.

Boya employs 450 dedicated and talented team at its Guangzhou and Shenzhen companies. Everybody in Boya knows that we take on an important responsibility when our customers let us package their products. Quality must be built into every tube produced. All our employees are committed to meeting customers' requirement in quality and continually improve effectiveness of our quality management system in accordance with the requirement of ISO9001:2000 international Standard.

We are aware of this, understanding our customer's requirements and meeting them is key of our success. With the most aggressive lead-time among Chinese tube manufacturers, we can meet or exceed customer delivery deadlines while adhering to customer-defined specification. Our entire staffs is dedicated to maximizing customer's satisfaction, service and support, meeting need of the ever-changing global packaging market.

Our experience, our qualified know-how and specialization in terms of innovation allow us always capable to propose overall tube solutions suitable to shape your ideas with durable and appealing packaging. Our continuous process and ongoing capital investment help our company increase it's competitive advantage among the packaging industry.

We always take pride in meeting your demands for maximum quality, service at a competitive price with short lead-time. We are always eager to become your preferred partner in tube packaging.

The solution to all of your tube packaging needs

We are proud to offer our customers a broad range of tubes—PE tubes, PE foil tubes and laminated tubes. Each tube we manufacture is designed to meet your specific needs. We work closely with our customers to settle the tube configuration, diameter, length, head and neck finish, as well as closure and tube orifice specification.

Our devoting to quality enable us to offer high level decoration on the tubes, in offset or silkscreen printing, all six colors. Applying hot stamp foils and labels to tubes and utilizing offset printing combines with other decorating process make us capable to provide our customers endless tube decorating options. We also offer tubes in unusual shapes with a customized sealing that can be round, wavy or angled.

Focusing on functionality, we have developed variety of flip-top closures for one hand operation and a sloping type shoulder that makes it easy to empty the tube. We have also developed series of unique oval tubes with matching screw caps or flip-top caps. This kind of oval design can provide a large display area.

However, if you cannot find the right solution in our range of standard tubes. We should be happy to develop a tailored solution for you.

全方位软管包装解决方案

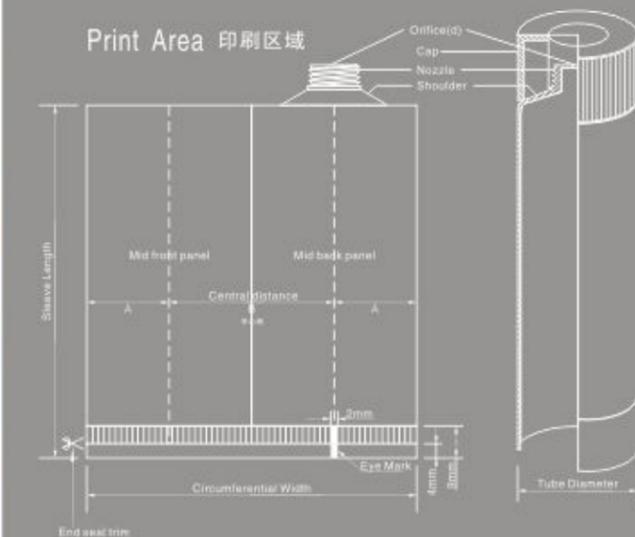

柏雅致力于软管的生产与研发，特别是新管形的开发生产，使得我们能为客户提供全规格且系列化产品。我们密切配合客户的产品设计开发，协助决定产品的结构、直径、长度、牙头、盖子以及根据内容物稠稠性质去决定孔径等事项，准确地按客户产品的要求生产每一件产品。

倾力关注质量使得我们的生产工艺水平日益提高。柏雅拥有先进的自动六色胶印生产线及高达六色的全自动丝印生产线。采用全进口烫金纸以及丰富多彩的自动粘贴标纸，并且多种工艺之结合使得我们能够为您提供设计提供无穷无尽的工艺组合选择。

除了标准系列产品外，柏雅还开发了多种形式特别的产品。各式各样的盖子，不同花纹以及形态各异的特殊封尾，使得您的产品更具个性而更加动人。在管身形式的变化上，柏雅不断地加强自身开发能力，多个系列的椭圆形管、超扁管已推出市场，为您的产品包装战略提供更多的可选方案。

假如您依然不能在我们现有的产品中找到您所需要的管型、盖型，相信柏雅，我们的新产品开发能力将为您提供满意的解决方案，我们永远乐意为您服务！

Polyethylene Tube

塑料软管

柏雅专注塑料软管的生产与研发十余年，我们只使用进口的高品质、食品级的原材料来制造我们的产品。根据管子的手感及软硬度要求来选择低密度和高密度或者高低密度混合的聚乙烯—常称PE的原材料，管子可以是白色、透明或者按客户要求调颜色。根据管子功能要求，我们可以制造出单层、双层、五层塑料管。

柏雅人随时以专业的知识、热诚的态度来帮助客户选择最适合产品特性、设计风格以及终端使用需求的包装。柏雅先进而精确的软管印刷及加工设备，加上态度认真、技能熟练的生产人员使我们能够将胶印、丝印、柔印、烫色、贴标等技术相结合而组合成最适合客户设计要求的工艺方案，为客户风格各异的各种产品提供无穷无尽的包装选择。让柏雅包装您的产品吧，我们将全心全意投入、努力将您的产品包装成独具一格的艺术品。

turn your tube into
A Unique Piece Of Art

PEfoil Tube

强化复合铝塑管

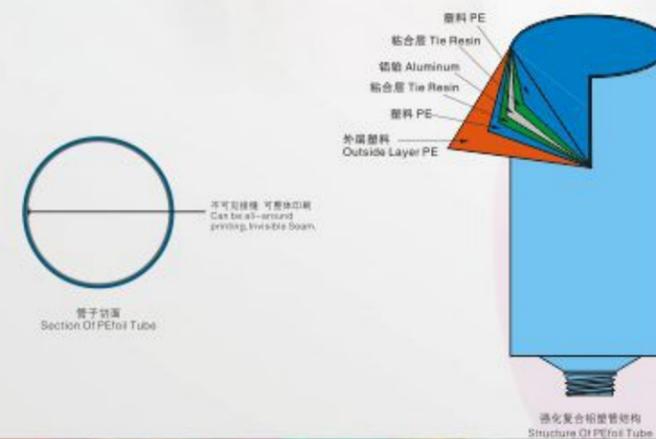

- barrier properties
- un-deformable & un-crushable
- protect against light
- diffusion-proof
- corrosion-resistant
- moisture barrier
- impermeable to chemical
- invisible side-seam
- added PE overlayer, strong sleeve

Boya's PEfoil tube, a high barrier tube for cosmetic, food, pharmaceutical, personal care industries. PEfoil tube is made of a centre layer of aluminum coated on both sides with a thin plastic layer and final coated of another plastic layer. So PEfoil tube have high barrier properties and is diffusion-proof, water vapor impermeable and chemically resistant.

Some products need to be efficiently protected, just like pharmaceutical grade treatment for sensitive or irritated skin, eye cream and gel, sun cream, anti-wrinkle cream, all natural cosmetics, skincare formulations, and other products with special ingredient easy to transmit, PEfoil tube is the number one choice for these types of products, because PEfoil tubes can provide a strong barrier against light, moisture, oxygen and other chemical substances, and resistance to corrosion, guarantee your products getting high protection, easy preservation and long shelf time.

PEfoil tube is beyond normal laminated tube, because of its outside coated polyethylene layer, the sleeve of tube is much stronger but still flexible, and the longitudinal seam of PEfoil tube is invisible which make PEfoil tube can be printed all-around, and keep the tube in its perfect shape until it is completely emptied.

The high aesthetics of PEfoil tube due to Boya's advanced equipments, high level technics and good process.

High Barrier, High Protection
OUTSTANDING APPEAL

Boya's manufacturing focus on polyethylene tubes for more than ten years. Only high quality, food grade raw materials are used in the production of Boya's tubes. The tubes are available in white, transparent or tinted in HDPE, LDPE or in a mixture of this materials, and they can be mono-layer, two layers or five layers tubes. Tube material, like tube body, head, and orifice configuration, is determined by the product's characteristics and end-use application. Boya is always ready to assist customers in determining the appropriate tube structure best suited for their tube project. Also Boya's high-quality and accurate decorating equipment coupled with our skillful technicians enable us to deliver all possible combination of offset, silkscreen, flexo-printing, hot-stamping and labeling to achieve limitless graphic designs. Let us pack your products, we will do our best and turn your tube into a unique piece of art.

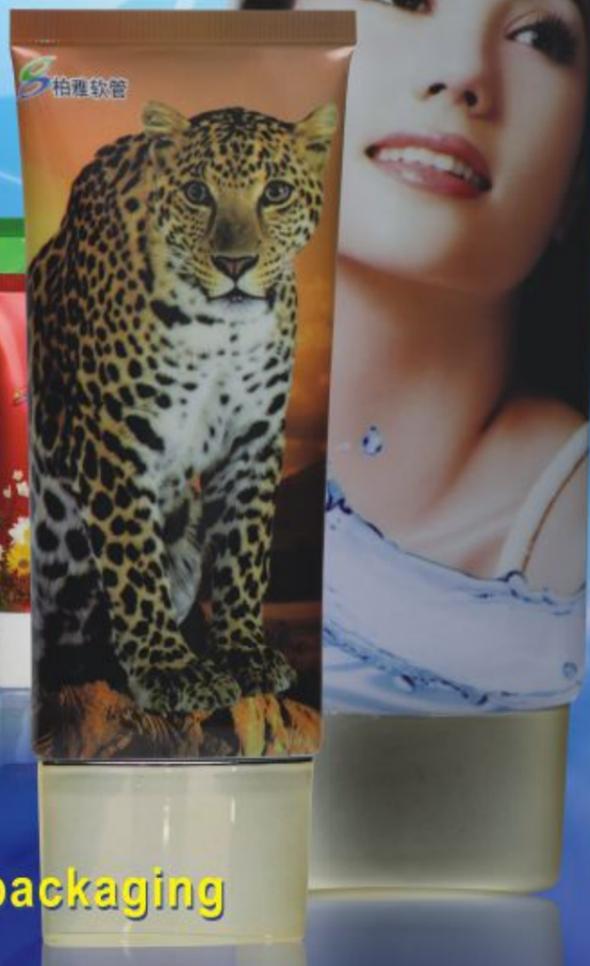

强化复合铝塑管是一种材质强韧且阻隔性能高、外形美观而恢复性能良好的新型软管，广泛应用于化妆品、医药、食品、化工等行业包装。随着市场对产品包装要求的不断提高，柏雅的强化复合铝塑管将是更好的包装选择。这种强化铝塑管采用中间一层铝铂两边为PE塑料的复合片材，首先将片材焊接成管状，再在表层涂上完全熔化的PE料，然后冷却定型而成，而在塑料中间的这一层铝片形成了管子一层强有力的阻隔层，从而阻止了管子内容物与管外物质的交流，所以，这种管能防止内容物向外扩散，并有效防止外界之光线、水蒸气、氧气或其他化学成份的侵入而且具备抗腐蚀能力，从而保证产品不受外界环境影响而延长其保质期。在柏雅，我们采用高品质、食品级的进口原材料来生产我们的强化铝塑管，这种产品很大程度上优于普通塑料管：

1. 材料强韧、结构合理，更厚、更实、且大幅度提高抗压、抗拉、抗寒、抗热能力。
2. 整体性强，片材焊接成管后再在外面涂上整体的一层塑料层，表面平整，不见接缝。
3. 产品外形恢复性能强，由于产品外层较厚的塑料，使其弹性良好，挤压后即恢复原状、不变形、不起皱，永保饱满、圆润之外观。
4. 管身质感丰富而殷实。由于以金属铝片材为内层，外层塑料可通过加入各种色母，诸如珠光、幻彩、透明色、半透色、实色等来调节颜色，既可使产品保留天然的金质感，也可塑造出丰富多彩、鲜艳夺目的红金、紫金、蓝金、绿金等各种金属色，即使不采用金属色彩而采用其他颜色，底层的亮银更能衬托出外层的色彩，使之更鲜、更活而跃然于目。
5. 由于片材的焊缝隐藏在管子的塑料内面，使管子表面平整而适应于整体印刷，柏雅的各种先进的印刷、加工技术更能体现在您的产品上，使您的产品更加绚丽多彩而独领风骚。

Laminated Tube

为提高各种产品的包装功能以及适应不同产品的包装需求，柏雅依赖先进的生产设备、技术力量、严格的质控体系继续发展另一种极具潜力的而且实用的软管包装产品线——焊接铝塑管。这种产品由五层片材卷成状后焊接成管加上注头而成形，既具有高效的阻隔性、保护性，而且因为片板可预先印刷，使之外观效果更为丰富多彩，产品可以呈现炫丽的金属感，也可以实现色彩丰富而极为逼真的彩色满版印刷。我们不断改善该类产品的性能，使管型更平整，更有弹性，更具防渗透、防光、防腐性能，加之印刷技术的提高结合其他各种装饰工艺，使得产品的设计创意空间越发宽广，更便于设计师们尽其所能，挥洒自如，妙笔生花，进一步让产品之形象独特、个性鲜明而傲立群芳。

焊接软管

Excellent Barrier
durable & appealing packaging

For catering to various products and businesses, Boya's facilities work proficiently with creative and professional terms also develop another product line comprised of Series of Laminated tubes. BOYA'S laminated tube provide one more cost-effective packaging strategy for our customers. With our advanced equipments, our experiences, our qualified know-how and innovation spirits, we continue to improve the Properties of this kind of tubes, enhancing their abilities to retain smoothness, flexibility and softness, and keep the excellent barrier characteristic. Additionally, with the improvement of printing technique, combining other variety of decorating capabilities of BOYA, any complicated, distinctive artwork which integrated your creative, convincing idea can be perfectly applied on your tube packaging!

柏雅软管

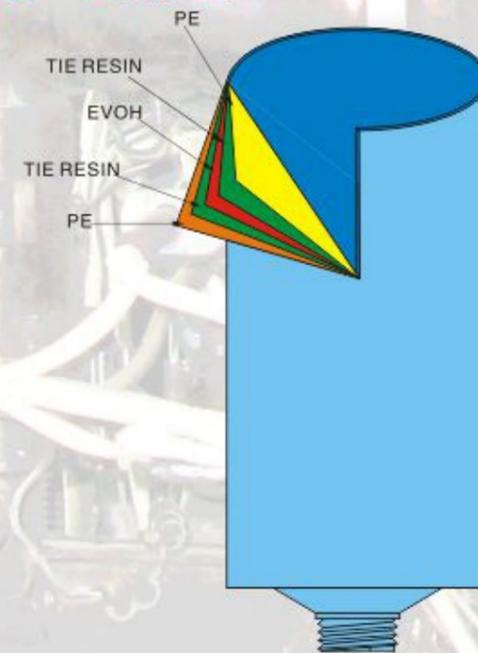

Some products are very sensitive to light or oxygen and must be carefully protected. Other products have a strong smell that has to be concealed. A co-extruded tube which incorporate a barrier layer in it may be the best solution. The barrier layer can provides excellent product protection characteristics, preventing transmission of ingredient such as sun cream, flavors and perfumes through the body of the tube.

Five layer tube is always available both in Boya's ShenZhen and GuangZhou plants. Please note that these are only suggested uses. It's the customer's responsibility to conduct compatibility tests on tube types.

If a five layers co-extruded tube is still not enough to protect your product, choose our high protected polyfoil tube.

五层塑料软管

5-Layer polyethylene Tube

Structure of 5-Layer Tube

Structure of 5-Layer mold

有些产品对光和氧比较敏感，另一些产品有浓厚的气味且有渗透性。这些产品须得到良好的保护。采用复合五层管就是一种良好的解决方案。五层管中间的阻隔层能隔断内容物与外面光、氧的交流，防止内容物向外渗透，也同时阻止外界光、氧或其他物质对内容物的影响。柏雅的两个工厂均配备先进的五层管生产设施，具有足够的产能为您提供优质的五层复合管。关于采用五层管，我们仅是提供建议，相关的兼容性测试由客户实施，我们非常乐意提供一切协助。

柔印 Flexo-Printing

To replicate a photo realistic artwork on a tube, offset and silkscreen printing is incapable to accomplish it. Usually labeling is a good decorating option. But how to make your tube more perfect without an additional label on it. Boya's Flexo-printing technics is the solution!

Through new machinery purchases, Boya has outfitted it's plants with the latest flexo-printing technology, thereby enhancing our existing decorating capability and production capacity. The new facility enable Boya's customers to carry out a wide variety of complex tube decorating concept with almost exact realistic ideas.

This creative decorating option from Boya involves using high-resolution picture which can be printed in four colors with our flexo-printing machinery. Any complicated, sophisticated artwork, like a high-resolution photo of flowers, faces of people, can be applied on the tube with a perfect finish. Boya's flawless tube, endless decorating options with your clever, convincing design—combining tactile, visual and aesthetic perfection. So, blooming with your ideas, Boya will print them on your tubes!

implement high-end and realistically
EXCITING PACKAGING

让具有相片效果的设计呈现软管上，丝印和胶印不能达其效果，通常贴标工艺是一种不错的选择，但如何在管身上不存在一层附加标纸的情况下而使管身的图片形象逼真而栩栩如生，柏雅的柔印工艺就是解决方案！
柏雅引进先进的软管柔印设备，既增加新印刷工艺，提高核心技术且同时扩充了生产能力，使我们更能适应市场，更大限度地满足客户需求，柔印是采用柔性凸版直印技术，将一张高分辨率的图片分四色直接印刷于管身表面，通过这种工艺，任何形象化，色彩丰富且复杂的设计，如花卉，人脸或其它鲜活的图像效果均能逼真地再现于软管上。柏雅高品质的管子，数不尽的印刷与加工各种工艺组合，加上您充满创意，令人叹服的设计，必然是视觉、触觉和美感的完美结合。所以，让您的创意尽情驰骋，充分发挥，柏雅将帮您展现在您的产品上。

崭新的印刷技术

One-to-Eight Color Offset Printing

Boya's high-speed offset printing machines are capable to print a mass of tubes every day with intricate and detail artwork while maintaining superior registration, appropriate gradation and consistent quality. The use of matte or gloss lacquers coating provide the tube with different special effect. Boya's offset printing can also be combined perfectly with all other decorating technologies to achieve unique stylish designs. Utilizing the eight-color offset process complements silkscreen printing, labeling and hot stamping in your artwork make your products get high-impact effects and more outstanding on the shelf.

1—8色胶印

Endless Decorating Options.....

柏雅先进的进口胶印生产线每天印刷数拾万支不同类型不同规格的软管，无论是简单还是复杂的设计，经过严格训练的技术人员和质控人员均能完全依照客户确定的样版生产出稳定质量的产品。而且，柏雅的胶印工艺能结合全自动丝印、烫金和贴标等其他技术作多种多样的组合，使客户的产品策略在管身装饰方面有着无限的选择，令您独树一帜的产品在视觉上更具冲击力而一枝独秀、艳压群芳。

One-to-Six Color Silkscreen Printing

When your packaging project need a colored tube, the best solution for tube decoration may be utilizing silkscreen printing that can offer the tube high-opacity texts and patterns which is more visible and vivid. Boya's up to six color one-pass silkscreen printing enable our customers to implement sophisticated, complex and graphically tube packaging.

We have outfitted our GunagZhou and ShenZhen factories with the latest silkscreen printing technologies. Our continued investment in new machinery to increase output and in plant modernization to enhance efficiency offer ourself the capability to produce order on-time and in-full according customer's specifications.

1—6色丝印

enhanced shelf appeal WITH BOYA'S DECORATING INNOVATION

当您的包装策略中需要用到色管特别是深色管而胶印工艺不能达到您的设计要求时，最好的解决方案是采用丝印工艺。丝印油墨的不透性与其自身质感能增强所印文字、图案的可视度且更令其鲜艳亮丽。柏雅高至6色的全自动丝印工艺能满足您多颜色、复杂且逼真的丝网印刷要求。

Tube hot stamping

While offset and silkscreen printing are exceptional in their own ways, Hot stamping is another decorating process of choice for the plastic tube packaging. Using high-quality foil of international standard and latest technologies enable us to apply gloss or matte metallic graphics to plastic tube. The glint and shimmer of gold, silver, bronze and other color foil on the tube conveys a premier brand image, making your products more eye-catching and stand out from the crowd.

convey a premier brand image

With Boya's Hot Stamping Technologies

烫色

除了胶印，丝印作为软管设计方案采用的方法，烫色工艺是另一种有效的选择。采用全进口的高质量烫色纸与成熟的先进高效的生产设备，精湛的烫金技术将光耀灿烂的文字、图案体现在你的包装战略上。那些金色、银色、古铜和其他金属效果所发送的闪耀及引发的视觉冲击，让您的品牌形象更加光芒四射，卓越出众。

Tamper-Evident

If you need tamper-evident for your tube projects, Boya's automatic capping equipments can apply foil seals to the tube orifice during the capping process.

如果你的包装方案需要铝铂封口，柏雅的自动锁盖设备在上盖工序中就能为您的产品贴上金属PE复合膜。

Tube labeling

贴标

柏艺不能最让雅的全满足遍自动贴标技术采用效果设计呈现现在软管上，贴标工艺为各色各样的管身装饰带来生动而丰富多彩的真实效果，当其他工

Integrate Photo Realistic Designs
into your packaging strategy

To reproduce almost photo realistic artwork on plastic tubes, labeling bring a vivid and colorful effect to a wide variety of packaging solution. Using self-adhesive labels as the decoration technologies of choice, any highly sophisticated artwork, like flowers, face or other holographic effects, can be replicated in more detail on tubes. Boya's labeling capabilities enable us to help you integrating labeling into your plastic tube packaging strategy, shaping your realistic idea.
